Volume 13

Special Issue on Energy Modelling for Developing and Industrializing Countries

1 Editorial
J.E. Samouilidis and S.A. Berahas

2 Invited Review
Energy policy modelling in developing and industrializing countries
J.E. Samouilidis and S.A. Berahas

12 Long term forecasting of energy demand in the developing countries
D. Finon and B. Lapillonne

29 Modelling energy-economy interactions
I. Kavrakoğlu

41 Modelling energy-economic interactions in developing countries: A linear programming approach
P. Meier and V. Mubayi

60 Oil producing countries and development problems: A case study of the Iranian economy
H. Motamen

74 Energy and the Israel economy
A. Breiner and R. Karni

88 Energy-economy simulation with the Argonne Energy Model for Portugal
F.R. Wyant

103 Book Reviews

113 EURO Bulletin

115 Group processes for forecasting
K. Brockhoff

128 A two-stage stochastic model for labour wastage
G.K. Agrafiotis

133 Cross-validation using the t statistic
J.P.C. Kleijnen

142 On the service system $M^x/G/\infty$
D.F. Holman, M.L. Chaudry and B.R.K. Kashyap

146 ?/M/1: On the equilibrium distribution of customer arrivals
A. Glazer and R. Hassin

151 Semi-explicit solutions for M/PH/1-like queuing systems
F. Gillent and G. Latouche

161 Complexity of a 3-dimensional assignment problem
A.M. Frieze

165 A resolution method for multiobjevtive problems
M. Delgado

173 Measuring output efficiency
R. Färe and S. Grosskopf

180 Concepts of proper efficiency
D.J. White

189 Book Reviews

197 Euro Bulletin

First EURO V Special Issue

201 Invited Review
Using fuzzy sets in operational research
H.-J. Zimmermann

217 Editorial
K.B. Haley
218 Resource allocation within government administration—the tax inspectorate
A.A. Holt and M.G. Hudson
224 Budgetting and productivity improvement for national government
P. Farmer
238 The effects of income taxation in investor's risk-taking: A stock company case
P. Yli-Olli and O. Kolehmainen
251 Government-assisting professional organizations: Public or private?
N. Waks
256 On relationships between ROI and IRR under inflation: A constant real cash-flow case
T. Aho and I. Virtanen
268 A model and some evidence on pricing compound call options
J. Boot, G. Frankfurter and A. Young
274 Marginal cost pricing and revenue reconciliation for electricity
G. Bergendahl
278 Multi-criteria analysis of impacts of energy alternatives: A survey and a new comparative approach
J. Siskos and Ph. Hubert
300 A multi-criteria framework as a decision support system for urban growth management applications: Central city redevelopment
L. Anselin and E.G. Arias
310 On model building for insurance industry
T. Pentikäinen

326 Book Reviews
336 EURO Bulletin
339 Invited Review
Management accounting and operational research
J. Kriens, J.Th. van Lieshout, J. Roemen and P. Verheyen
353 Estimation risk and stability of optimal portfolio composition
H.L. Dhingra
361 Capital investment with abandonment options and uncertainty in project life using multiperiod CAPM
P.K. De, D. Acharya and K.C. Sahu
369 A linear programming model for the optimal levelling of an irrigation surface
T. Rapcsák
374 A heuristic for quadratic Boolean programs with applications to quadratic assignment problems
R.E. Burkard and T. Bönniger
387 Interdependent additive conjoint structures
S.J. Deutsch and C.J. Malmborg
391 *k*-Interchange procedures for local search in a precedence-constrained routing problem
H.N. Psaraftis
403 A fuzzy set theoretic interpretation of economic control limits
C.W. Bradshaw, Jr.
409 Book Reviews
